24 ..... Aug 2021

Dear Parents / Guardians,

On behalf of the staff of Mayo College, we thank you for the sustained faith and confidence you continue to repose in us in these very uncertain times. Whereas we have learnt to manage the academics to a great degree in the online mode, the other facets that provide for holistic education can be suitably addressed only once the students are on campus.

We are pleased to receive permission from the Government of Rajasthan to call students from Classes 9 to 12 from September onwards. I am sure the students are eagerly looking forward to revive their boarding school experiences. On our part, we have made elaborate preparations to receive the students. Earlier this year, when students had been allowed to return, you saw the arrangements in person or on our social media platforms. This began with the reception and included the activities being conducted during the quarantine period. Thereafter, they were placed in their bio bubbles in order to minimize contact with other people. This time around, we are pleased to announce that our staff has been vaccinated. This has enhanced the safety levels in the campus.

We will invite students to return to campus in compliance with COVID protocols. The first step is to receive parental consent. Our preliminary survey shows that number of parents are keen to send their children back to campus. We will seek a formal consent from parents through the House Masters this week. Please await an official intimation informing you of the date to report to school. As there are limitations owing to quarantine capacity, we request parents to kindly cooperate with the schedule that is sent to you.

On return to the campus, students will be given pen and paper assignments to ascertain possible learning gaps that may have emerged during the extended lockdowns. This will help us to conduct remediation for each student as per his individual needs. This will be a vital step in the return to a normal academic routine. During the quarantine period, classes will be conducted online. Students should bring laptops with them. Post quarantine, the routine will be conducted in an asynchronous hybrid format.
